WELLNESS

Nutraceutical

ReStorSilver

As we age, our levels of the essential enzyme calcium ATPase decline in our body. This enzyme is critical to many of our key bodily functions and consequently very important to our overall health. When we have reduced levels of this enzyme, it can lead to ailments such as trouble in sleeping, increased muscle fatigue, overactive bladder, and other discomforts.

ReStor Silver is the first nutraceutical specifically formulated to target calcium ATPase. Now patented, ReStor Silver supports the body's responses to daily stress and activity by replenishing our levels of calcium ATPase.*

HOW DOES IT WORK?

Calcium ATPase serves as an ion pump that controls levels of calcium ions inside the cells. It uses the energy from the ATP molecule to move calcium ions where they need to be while moving excess calcium out of the cells. This regulation of calcium is critical to cellular health and function -- when levels of calcium inside and outside the cell are ideal, we are able to achieve optimal vitality.

Scientists discovered that the jasmine flower extract possesses the remarkable ability to stimulate production of Calcium ATPase. By replenishing the levels of Calcium ATPase in the body, ReStor Silver can help improve muscle strength and recovery, promote restful sleep, improve bladder control, and reduce muscle discomfort.*

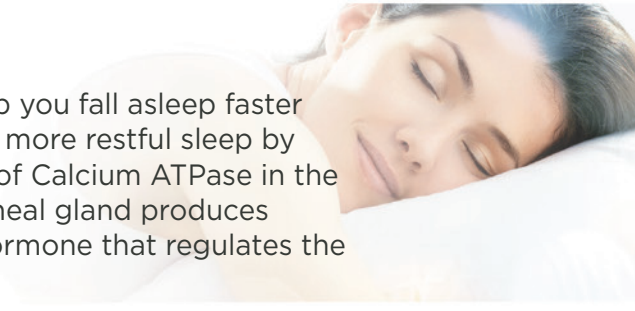

KEY INGREDIENTS

Jasmine Extract | L-Arginine | Taurine

KEY BENEFITS

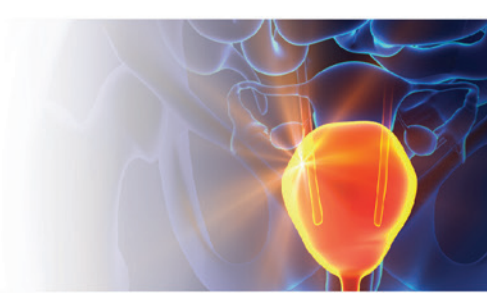

SLEEP

ReStor Silver can help you fall asleep faster and promote deeper, more restful sleep by increasing the levels of Calcium ATPase in the pineal gland.* The pineal gland produces melatonin, the key hormone that regulates the sleep-wake cycle.

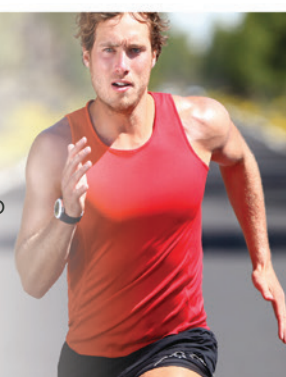

URINARY

ReStor Silver supports bladder function in men and women, and helps users regain the bladder control they used to have.*

MUSCLE FATIGUE

ReStor Silver helps improve muscle endurance, strength, and recovery.* When Calcium ATPase levels are increased, our muscles are able to work longer before reaching fatigue. When we are able to work harder and longer, muscle growth is stimulated. Increased Calcium ATPase levels also assist in muscle recovery as calcium levels can be normalized more rapidly.*

JOINT COMFORT

ReStor Silver can help promote comfort and mobility in the joints and muscles by helping maintain optimal levels of intracellular calcium.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

DIRECTIONS FOR USE

Adults take 1ml to 2ml daily, mixed in 120-180ml of water or other liquid. Shake well before use. Do not exceed the stated recommended daily usage.

CAUTIONS

If you are pregnant or lactating, or currently under medical supervision, consult a healthcare professional before using. Keep out of reach from children.

NOT FOR MEDICINAL USE.

INGREDIENTS

Purified Water, Vegetable Glycerin, Jasmine Extract, L-Arginine, Taurine.
