WELLNESS

Nutraceutical Glucosamine 2200

Adults and athletes can all agree that joint problems like soreness and stiffness can really limit our ability to stay active and enjoy life. For some, a lack of enough glucosamine is the major contributor.

As we age, the natural Glucosamine levels in our bodies decline. Our body's production of Glucosamine is crucial to building cartilage, which is the "cushion" in our joints that reduces friction between the bones. Less cartilage overtime takes a toll on our joints and can result in decreased mobility and other discomforts.

TO HELP PROMOTE JOINT HEALTH

NHT Global Created Glucosamine 2200 to directly supplement your body with the building blocks needed to help rebuild your body's glucosamine and promote cartilage production. Formulated with a healthy joint blend of glucosamine hydrochloride, shark cartilage, mussel powder and turmeric, Glucosamine 2200 can help give you the support and relief you need to keep you moving.

HEALTHY JOINT BLEND:

- Glucosamine HCL
- Shark Cartilage Powder
- Mussel Powder
- Turmeric extract

KEY BENEFITS:

- Directly supplies the body with glucosamine to help rebuild the body's glucosamine and stimulate cartilage production.*
- Promotes joint health, joint mobility and joint comfort.*
- Contains turmeric extract, an antioxidant rich ingredient that studies have shown may promote joint comfort.*
- Contains mussel powder, which supplements the body with Omega 3 fatty acids, amino acids and minerals.*
